

Lynette Clark

Lynette Clark was born in Honolulu, Hawaii and later moved to Quincy, Florida where she received her TCC Challenge Prepaid Scholarship while in 10th grade as a student at Quincy Shanks High School.

In 1998, because of dual enrollment courses Lynette graduated from both high school and TCC in the same month. She was the Shanks valedictorian for that year.

Lynette was TCC's first Challenge Scholarship recipient to complete a four-year degree after her graduation in April 2002; a degree in industrial engineering from The Florida State University. She then enrolled in the Master's program in Industrial Engineering at FSU.
