MEMORANDUM

TO: District Board of Trustees
FROM: Jim Murdaugh, President 
SUBJECT: Construction Status Report

Item Description

This item describes the status of various construction, renovation, remodeling and site improvement projects at both the TCC Main Campus and the TCC Florida Public Safety Institute for information for the Board of Trustees.

Overview and Background

Main Campus:

Architectural construction documents are being prepared for the Dental Hygiene renovations. This project will have two phases. The first phase will include the remodeling of DH Room 136 into a Radiology Lab, with construction expected to occur in Spring 2014. When the new Radiology Lab is completed, it will provide temporary facilities while the main lab is renovated next summer. Also on main campus, construction is underway on the Organic Chemistry lab renovation in the Science and Math building.

Florida Public Safety Institute:

The current phase of logging in support of the Natural Resources Management Plan is complete. The logged area will be prepared for restoration this winter, and next spring will be replanted with long leaf pine to restore the native plant community. The preliminary design studies to evaluate critical power infrastructure at the Administration building and to improve the sanitary system at the Range Storage building are complete.

Past Actions by the Board

None

Funding/Financial Implications

This is a monthly update on the status of various construction and renovation projects undertaken to support the educational mission of the College. No further action is necessary on the part of the Board at this time.
