TO: Jim Murdaugh, Ph.D.
President

FROM: Barbara Wills, Ph.D.
Vice President for Administrative Services and Chief Business Officer

SUBJECT: Spot Survey 2.7

Item Description

This item requests the District Board of Trustees approval of Educational Plant Spot Survey 2.7.

Overview and Background

Pursuant to Section 1013.31 and 1013.35, Florida Statutes, and Section 3.1 State Requirements for Educational Facilities, Surveys shall be reviewed and approved by the board, and a file copy shall be submitted to the Department of Education. The attached Educational Plant Spot Survey 2.7 requests the following:

Site 2 Requested Changes:

Approval to dispose of Building number 02, located under TCC's Gadsden Service Center, Site 2 Campus. Physical location of building, 201 MLK Jr Blvd, Quincy, FL. 32351. This modular building has been determined to be unnecessary and unsatisfactory for educational purposes. The benefits to the college from disposal of the property would exceed any potential future educational use of facility.

Past Actions by the Board

None.

Funding/ Financial Implications

No costs will be incurred from the disposal of College properties.

Recommended Action

Approve the attached Educational Plant Spot Survey 2.7.

Section 2: Survey Cost Summary

RECOMMENDATIONS FOR EDUCATIONAL PLANTS

TALLAHASSEE COMMUNITY COLLEGE

Survey : 2 Version : 7

Date : 2/07/2023

The educational plant survey is a systematic study of present educational and ancillary plants and the determination of future needs. The survey is not directly concerned with the instructional program but the relationship of educational plants to the instructional program is such that judgments regarding the instructional program are necessarily a part of an educational plant survey.

The construction, remodeling, and renovation of educational facilities is a major undertaking. The educational plant survey aids in formulating plans for housing the educational activities of students and staff of the community college for the next several years and the survey considers the local comprehensive plan in its forecast strategies. This plan represents a careful study of all available data regarding the status of educational and ancillary facilities in relation to capital outlay full-time equivalency (COFTE) student membership and the projected changes in COFTE student membership. The intent of this educational plant survey is to ensure the thoughtful, orderly development of a program for providing educational and ancillary plants to house the educational and academic support activities of the college.

The recommendations in this educational plant survey furnish the foundation for a five-year plan for educational plants adopted by the Board of Trustees in accordance with §1013.31, Florida Statutes. Similarly, the recommendations serve as the basis for the proposed building program with projects listed in the order of priority submitted pursuant to State Requirements for Educational Facilities §2.1(5).

Educational plant survey cost estimates are determined based on cost factors that are 31 months (January, the midway point of the five-year survey period) from the official beginning of the survey period, which is July 1 of the first full year of the survey. The cost per square foot for new construction, remodeling, and renovation is based on actual statewide average construction cost data with a cost index increase applied to use the mid-point of the survey costs for planning purposes. The cost estimate process applies uniformly to all surveys in all colleges so that consistent planning can be made on a statewide basis.

Cost estimates for educational plant survey recommendations provide a general idea of anticipated costs and should not be interpreted as accurate estimates for particular projects. When educational plant survey recommendations become specific projects, professionals who can estimate the actual project costs based on current construction information must prepare the estimates.

The following table is a summary of square foot rates and cost estimates for the community college educational plant survey recommendations:

Recommendation Category	Cost per Square Foot	Estimated Cost
New Construction		
Remodeling		
Renovation		
Site Recommendations		\$1.00
Estimated Total Survey Recommendation Cost		\$1.00

In addition, the educational plant survey provides six standard recommendations for college-wide application, as needed. The standard survey recommendations address general categories of physical plant needs that are likely to occur over time. No cost estimates are included for the standard survey recommendations.

Notes:

The Florida Department of Education, Office of Educational Facilities received Supplemental (SPOT) Survey 2.7 at a time and date when the functionality of the Educational Facilities Information System (EFIS) was not effectively working for Supplemental Surveys. When the EFIS application works effectively, SPOT Survey 2.7 will be input accordingly.
