

## Heart Model Key

- |                                |  |
|--------------------------------|--|
| 2. Auricle of right atrium     | 26. Inferior Vena Cava                   |
| 8. Pulmonary Veins             | 27. Coronary Sinus                       |
| 9. Pulmonary Trunk             | 28,47. Great Cardiac Vein                |
| 10. Ligamentum Arteriosum      | 31. Right Coronary Artery                |
| 11. Ascending Aorta            | 35. Tricuspid Valve                      |
| 12. Aortic Arch                | 37. Pulmonary Semilunar Valve            |
| 13. Brachiocephalic Artery     | 38, 43. Interventricular Septum          |
| 14. Left Common Carotid Artery | 40,42,62. Papillary Muscles              |
| 15. Left Subclavian Artery     | 41. Mitral Valve (a.k.a. Bicuspid Valve) |
| 16. Superior Vena Cava         | 45. Aortic Semilunar Valve               |
| 17. Right Brachiocephalic Vein | 46. Small Cardiac Vein                   |
| 18. Left Brachiocephalic Vein  | 48. Apex of the Heart                    |
|                                | 49,54. Circumflex Artery                 |
|                                | 51. Auricle of Left Atrium               |
|                                | 55. Fossa Ovalis                         |
